PROFILE

Aspiring full stack developer excited to escape my mechanical and manufacturing background. Looking to grow and expand my coding skills with other programming enthusiasts. Happy to start anywhere to get my foot in the door and aiming to work in AI, cloud or analytics.

EDUCATION

DIPLOMA OF INFORMATION TECHNOLOGY

Coder Academy Melbourne | 2020

CERTIFICATE III IN LIGHT VEHICLE MECHANICAL TECHNOLOGY

TAFE Polytechnic West | 2011 - 2015

CERTIFICATE III IN SECURITY EQUIPMENT INSTALLATION

Complex Institute of Education Dandenong | 2020

PROJECTS

MONSTER ENCYCLOPEDIA

Terminal Application | 3 days - Allowed

My first programming project programmed in Ruby allowing users to read, create, update or delete entries and using a CSV file for persistent memory.

ONLINE PORTFOLIO

HTML CSS | 1 week - Allowed

robnarok.netlify.app

Static website mock portfolio, programmed in HTML5 and CSS with an implemented contact form, downloadable resume, blog page and projects with links.

TERRARIUM TOWN

Ruby on Rails | 2 weeks - Allowed

terrarium-town.herokuapp.com

2 sided marketplace programmed in Rails with a HTML and SCSS front end. Full CRUD functionality utilizing devise for user creation, login and authentications, hosted online using Heroku and connecting to Stripe for payments.

POKEMON ASCII

JavaScript | 3 days - Allowed

Terminal application programmed in JavaScript operating in a Node.js environment. Contacts a 3rd party API and converts Pokemon images into ASCII art to display in terminal.
